

Enhanced Cash Fund

Octagon Investment Funds

Fund Update as at 30 June 2023

This fund update was first made publicly available on 28 July 2023.

What is the purpose of this update?

This document tells you how the Enhanced Cash Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Forsyth Barr Investment Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund aims to provide a return above the Official Cash Rate (OCR) over a rolling 12 month period, by investing in cash, cash equivalents and short-term New Zealand fixed interest assets. These investments typically have very low movement up and down in value.

Total value of the fund	\$27,924,331
The date the fund started	7 June 2023

What are the risks of investing?

Risk indicator¹ for the Enhanced Cash Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years to 30 June 2023. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

Notes

¹ This fund came into existence on 7 June 2023. We've calculated the risk indicator using market index returns data for periods before that date, and actual fund returns data afterwards. Using market index returns data may make the risk indicator a less reliable indicator of how much fund values might go up and down in future.

² Excluding GST.

³ Please note that because the fund has not been in existence for a full year as at the relevant date, this example and the returns shown are for the period since inception, not annual figures.

⁴ Octagon Asset Management Limited is responsible for the day-to-day investment decisions for the fund.
