

Enhanced Cash Fund

Octagon Investment Funds

Fund Update as at 31 March 2026

This fund update was first made publicly available on 1 May 2026.

What is the purpose of this update?

This document tells you how the Enhanced Cash Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Forsyth Barr Investment Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Enhanced Cash Fund invests in cash, cash equivalents and short-term New Zealand debt security assets. It aims to achieve returns (before fees, taxes and other expenses) greater than the Official Cash Rate (OCR) over a rolling 12 month period.

Total value of the fund	\$124,662,337
The date the fund started	7 June 2023

What are the risks of investing?

Risk indicator¹ for the Enhanced Cash Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-profiler.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years to 31 March 2026. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

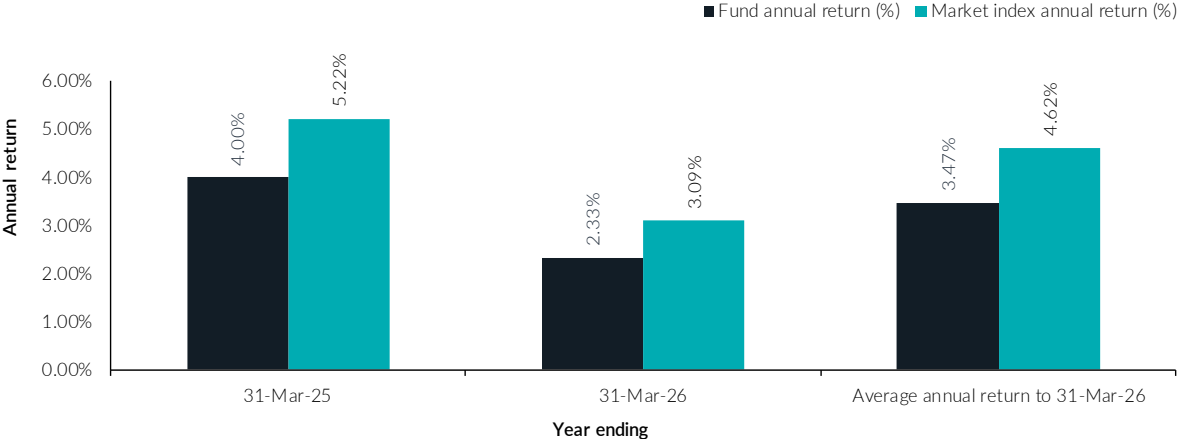

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	2.33%
Annual return (after deductions for charges but before tax)	3.28%
Market index annual return (reflects no deduction for charges and tax)	3.09%

The market index return is based on the S&P/NZX Bank Bills 90 Day Index. Additional information about the market index is available on the Octagon Investment Funds' entry on the offer register at www.disclose-register.companiesoffice.govt.nz.

Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2026.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Enhanced Cash Fund are charged fund charges. In the year to 31 March 2025 these were:

	% of net asset value ²
Total fund charges	0.36%
<i>Which are made up of:</i>	
Total management and administration charges including	0.36%
Manager's basic fee	0.36%
Other management and administration charges	0.00%
Total performance-based fees	0.00%
	Dollar amount per investor
Other charges	\$0.00

Investors may also be charged individual action fees for specific actions or decisions (for example for withdrawing from or switching funds), although these are not currently charged. See the "Other Material Information" document at www.disclose-register.companiesoffice.govt.nz for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

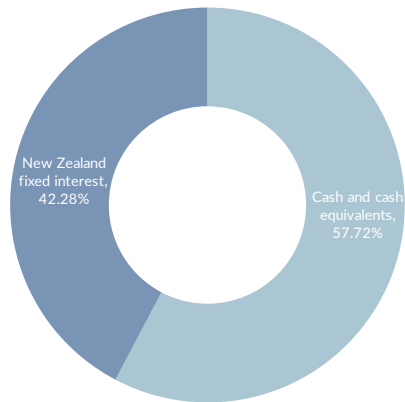

Example of how this applies to an investor

Jane had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Jane received a return after fund charges were deducted but before tax of \$328 (that is 3.28% of her initial \$10,000). This gives Jane a total return after tax of \$233 for the year.

Notes

¹ This fund came into existence on 7 June 2023. We've calculated the risk indicator using market index returns data for periods before that date, and actual fund returns data afterwards. Using market index returns data may make the risk indicator a less reliable indicator of how much fund values might go up and down in future.
