

Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2026.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Growth Fund are charged fund charges. In the year to 31 March 2025 these were:

	% of net asset value ²
Total fund charges	1.27%
<i>Which are made up of:</i>	
Total management and administration charges including	1.27%
Manager's basic fee	1.24%
Other management and administration charges	0.03%
Total performance-based fees	0.00%
	Dollar amount per investor
Other charges	\$0.00

Investors may also be charged individual action fees for specific actions or decisions (for example for withdrawing from or switching funds), although these are not currently charged. See the "Other Material Information" document at www.disclose-register.companiesoffice.govt.nz for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Jane had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Jane received a return after fund charges were deducted but before tax of \$851 (that is 8.51% of her initial \$10,000). This gives Jane a total return after tax of \$842 for the year.

Foreign currency exposures associated with international fixed interest are hedged to the New Zealand dollar. We actively manage the fund's foreign currency exposures associated with international and Australian equities, and listed property. As at 31 March 2026, these exposures represented 56.50% of the value of the fund. After allowing for foreign currency hedges in place, 20.02% of the value of the fund was unhedged and exposed to foreign currency risk.

Notes

¹ The composite benchmark for the Growth Fund is made up of the single asset class benchmarks weighted by the target asset allocation for the asset class. The single asset class benchmarks are the same as the benchmarks for the single asset class funds, and the benchmark for international fixed interest is the Bloomberg Global Aggregate Total Return Index 100% hedged to the New Zealand Dollar. The current weightings are as per the target investment mix referenced in this update under “what does this fund invest in?”.
