Octagon Investment Funds

Fund Update as at 31 March 2026

This fund update was first made publicly available on 1 May 2026.

What is the purpose of this update?

This document tells you how the Income Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Forsyth Barr Investment Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Income Fund invests across multiple asset classes. Investors can expect moderate to high levels of movement up and down in value. It aims to pay distributions, and achieve long term returns inclusive of distributions (before fees, taxes and other expenses) greater than a composite benchmark.¹

Total value of the fund	\$8,230,097
The date the fund started	11 December 2020

What are the risks of investing?

Risk indicator for the Income Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-profiler.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years to 31 March 2026. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Average over past 5 years	Past year
Annual return (after deductions for charges and tax)	2.16%	7.02%
Annual return (after deductions for charges but before tax)	2.97%	7.63%
Market index annual return (reflects no deduction for charges and tax)	2.48%	6.68%

The market index return is based on a composite index made up of the indices used to measure the performance of each asset class invested in as displayed under the target investment mix. Additional information about the market index is available on the Octagon Investment Funds' entry on the offer register at www.disclose-register.companiesoffice.govt.nz.

Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2026.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Income Fund are charged fund charges. In the year to 31 March 2025 these were:

	% of net asset value ²
Total fund charges	0.76%
<i>Which are made up of:</i>	
Total management and administration charges including	0.76%
Manager's basic fee	0.69%
Other management and administration charges	0.07%
Total performance-based fees	0.00%
	Dollar amount per investor
Other charges	\$0.00

Investors may also be charged individual action fees for specific actions or decisions (for example for withdrawing from or switching funds), although these are not currently charged. See the "Other Material Information" document at www.disclose-register.companiesoffice.govt.nz for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

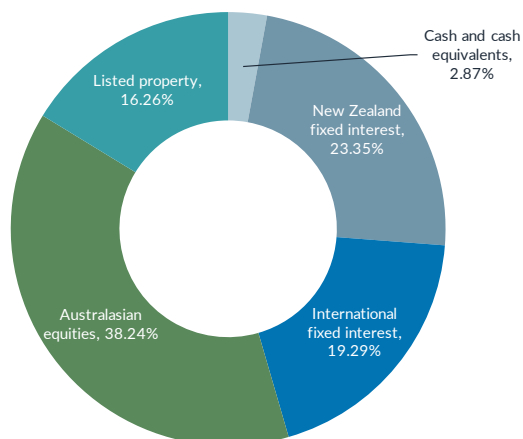

Example of how this applies to an investor

Jane had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Jane received a return after fund charges were deducted but before tax of \$763 (that is 7.63% of her initial \$10,000). This gives Jane a total return after tax of \$702 for the year.

Notes

¹ The composite benchmark for the Income Fund is made up of the single asset class benchmarks weighted by the target asset allocation for the asset class. The single asset class benchmarks are the same as the benchmarks for the single asset class funds, and the benchmark for international fixed interest is the Bloomberg Global Aggregate Total Return Index 100% hedged to the New Zealand Dollar. The current weightings are as per the target investment mix referenced in this update under “what does this fund invest in?”.
